

The Environmental Education Association of South Carolina presents:

*Seed Balls for Butterflies*

**APRIL 14, 2016**

**4:00 – 5:30 PM**

**A.C. MOORE ELEMENTARY, MEDIA CENTER  
333 ETIWAN AVE, COLUMBIA, SC 29205**

Teachers and environmental educators are invited to participate in a make-and-take workshop featuring seed balls for butterflies. Seed balls are a combination of clay, soil, and seeds that provide an easy and fun way to reseed the landscape. We will be using milkweed seeds to create habitats for monarch butterflies and other pollinators. We are excited to have Dr. Arlene Marturano, USC Center for Science Education, share her recipe for seed balls.

Also learn about A.C. Moore's award-winning environmental projects and tour their school garden with Mrs. Nancy Frick, Green Team Coordinator at A.C. Moore Elementary School.

Cost: Free to EEASC members, \$5 for non-EEASC members (pay at the door by cash or check)

Join EEASC: [www.eeasc.org](http://www.eeasc.org)

**Register by RSVP to Jane Hiller: [jane.hiller@sonoco.com](mailto:jane.hiller@sonoco.com) or 803.779.0608**
